## NURSERYMAN

PRICE LIST  
No. 12 A

SEASON  
FALL 1922  
SPRING 1923

SECOND ST. AT SALMON, PORTLAND, ORE.

Portland  
Street  
Trees

## INFORMATION

We are offering the present price-list No. 12-A to be used in connection with Descriptive Catalog, No. 12 edition of Trees, Shrubs, Vines and Plants, for the season fall 1922 and spring of 1923, and solicit your early orders for anything you may require in dependable nursery stock. Prices herein cancel all former lists. No descriptive catalog will be issued this season, but we will send on request copy of former issue, giving full descriptions of all stock.

**PLACE YOUR ORDERS EARLY**—Last season we were unable to fill all orders received, owing to adverse weather and the unprecedented demand, and early placed orders of course will be filled first. Owing to Federal Prohibition of importation of nursery stock, the supply in the entire United States is short and it will require several years growing before the American nurseries can take care of the normal demand.

Our business was established in 1887 and for the past 35 years we have been **growers**, not merely **dealers**, of general nursery stock, but specialize in fine ornamental trees and shrubbery. We are practical horticulturists and glad to assist with advice concerning commercial fruit plantings as well as assist in home improvement.

**LOCATION**—General office, packing and sales department are in Portland, corner Second and Salmon streets. Nurseries are at Durham, 11 miles south of the city. All inquiries should be addressed to the Portland office.

During planting season a general stock is carried at the city yards and replenished by daily truck service from the nursery. Visitors are welcome at all times to yards or nurseries.

**PLANTING SEASON**—Stock should not be planted until dormant in the fall nor after growth starts in the spring. Under ordinary weather conditions digging and shipping season commences in mid-October and continues until early April. Early fall planting is preferable as a rule, as roots form during the mild winters and plants are ready to grow when warm weather begins. Early spring planting is also perfectly satisfactory.

**PRICES AND DELIVERY**—It is my aim and intention to give good value to all purchasers. Prices in this catalog are net for stock f. o. b. Portland or nursery shipping station. Unknown correspondents should send cash with their order or arrange for terms.

**GUARANTEE**—I guarantee that all plants sent out will be delivered to the carrier in first-class condition and they shall be true to name and if through error any should prove untrue to replace them without charge. It is obvious that I cannot guarantee that customers will make them live, as I have no control over conditions surrounding them and the care they will receive after they leave my hands.

**LANDSCAPE DEPARTMENT**—Best results are attained in landscape and other gardening work when both experience and taste work together. Our Landscape Department is under well equipped and expert management. We are always glad to offer **suggestions without charge** to intending purchasers, but where landscape problems require special visits, plans, specifications, etc., a charge is made consistent with value of services rendered. We will be pleased to take up this matter more fully with those who are interested.

We take it that you have one of our  
former descriptive booklets on file;  
if not, we will gladly send on request  
a copy of No. 12 edition of

## Trees, Shrubs, Vines and Plants

“PLAN TO PLANT ANOTHER TREE”

## DECIDUOUS ORNAMENTAL TREES

The following list of deciduous trees (those that lose their leaves in autumn) embraces a selection for all purposes. For street planting, the Norway Maple probably leads in general suitability, with several other varieties of Maples, Elms, Birches, Horse Chestnuts, Tulips, Mountain Ash and others, all favorites; while for lawn and park planting this varied list covers trees of every characteristic in outline and habit, color of foliage and floral diversity.

These trees have been grown from seedlings in my nursery, have been transplanted each a number of times, according to size, will transplant readily and take vigorous hold and grow well when moved to permanent locations. Prices are for different sized trees, and in all cases good value will be given, according to price charged.

	Height in Feet.

### SHRUBBERY PLANTING

## DECIDUOUS ORNAMENTAL SHRUBS

Flowering shrubs take predominance in all plans for landscape decoration, grounds large or small. Without shrubbery no landscape can be created, but with a careful selection, properly planted, any property can be enhanced in beauty and value. If care is given in selecting, flowers can be had from early Spring to late Fall. It is my aim to produce everything in flowering shrubbery that is useful, hardy, and worthy of cultivation in this climate. I have been bringing in, trying out and rejecting different shrubs for many years past, adding to my list only those of proven merit in the Pacific Northwest. My stock is large, well grown, every plant being bushy and well furnished in proportion to its height and with exceptionally fine root system. Where no sizes are quoted, prices are for large, well grown shrubs, that will give immediate effect and flower the first year after planting.

Japan Maple ( <i>Acer Palmatum</i> )—		Size in.	Each.
Cut Leaf Red .....	16-20	\$2.50	
Ribbon Leaf Red .....	18-24	2.50

LOW GROWING SHRUBS FOR BASE PLANTING

**ABELIA RUPESTRIS — BEAUTIFUL FLOWERING EVERGREEN**

## BROAD LEAVED EVERGREEN TREES AND SHRUBS

The great beauty of the broad leaved evergreens, makes them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad, attractive leaves show out most effectively during the parts of the year when many trees and plants are without foliage. There is practically no end to the charming results that can be obtained by the liberal use of this class of plants.

<b>Abelia Rupestris</b> , pink tinged.....	18-24	\$1.00
<b>Andromeda</b> —See Chamaedaphne and Pieris.

ask for No. 12 Edition —  
**TREES, SHRUBS, VINES and PLANTS**

**RHODODENDRON—HYBRIDS IN SEVERAL DIFFERENT COLORS.  
GROWING VERY SCARCE AND THEIR PLANTING  
SHOULD NOT BE POSTPONED**

AN ATTRACTIVE ENTRANCE

## CONIFERS—EVERGREEN TREES

Always dug with ball of earth and burlapped. We transplant and root prune them frequently, which practically insures successful transplanting, even of the larger specimens of which we have a limited number of large size specimens from 4 to 8 feet high in *Abies Balsamea*, *Cicilica*, *Concolor* and *Nordmanniana*; *Lawson's Cypress*; *White, Englemann's*, *Norway* and *Colorado Blue Spruces*; *Austrian* and *White Pine*, and *Redwood*, and will gladly make special quotation upon any in which you may be interested.

### *Abies* (Firs)—

<i>Balsamea</i> , Balsam Fir, specimens.....	6-8 ft.	\$6.00
<i>Concolor</i> , Colorado Fir.....	3-4 ft.	3.00
<i>Concolor</i> , Colorado Fir.....	4-5 ft.	5.00
<i>Nordmanniana</i> , Nordmanns Fir.....	18-24 in.	2.00
<i>Nordmanniana</i> , Nordmanns Fir.....	24-36 in.	2.50
<i>Nordmanniana</i> , Nordmanns Fir.....	4-5 ft.	5.00
<i>Pinsapo</i> , Spanish, Pin Fir.....	18-24 in.	2.00
<i>Pinsapo</i> , Spanish, Pin Fir.....	24-36 in.	2.50
<i>Pinsapo</i> , Spanish, Pin Fir.....	4-5 ft.	5.00

*Arucaria Imbricata*, Monkey Puzzle.....18-24 in. 4.00

### *Cedrus* (Cedars)—

<i>Atlantica</i> , Mt. Atlas Cedar.....	2-3 ft.	2.00
<i>Atlantica</i> , Mt. Atlas Cedar.....	3-4 ft.	3.50
<i>Atlantica</i> , Glauea Blue Atlantic.....	24-30 in.	2.50
<i>Atlantica</i> , Glauea Blue Atlantic.....	3-4 ft.	3.50

### HARDY PLANTS IN TUBS FOR PORCH DECORATION

We carry a splendid assortment of these in stock at all times, ranging in price from \$3.00 to \$10.00 each. See them at the Sales Yard, or write for List.

**ROCK GARDEN AND PERGOLA AT RIVIERA, PORTLAND**

Our Landscape Department will be glad to work with you and for you in beautifying or improving your home grounds, be they large or small. There is no charge for Office suggestions, where proper data is furnished us by intending purchasers, for base and border plantings. On large places or where special visits, study, plans or specifications are required, a reasonable charge, consistent with the value of the services rendered will be made. Get in touch with us — Surely we can help you.

## ROSES

### Strong Field Grown Two-Year-Old Plants That Give Results

Abbreviations used in descriptions are: H. P., Hybrid Perpetual—vigorous, hardy, flowering in Spring and Fall; require less care and attention than other classes. H. T., Hybrid Tea—more vigorous in growth, free flowering, fine colors; the most satisfactory class for the Pacific Northwest. T., Tea or Everblooming—less vigorous, more tender, finest of flowers. Poly., Polyanthus—fine class of small flowered climbers or pillar roses. Noi., Noisette—rather tender climbers, flowers usually in clusters. G. M., Gold Medal—the Highest Award of Merit given by the National Rose Society of England.

These plants are too large for mailing unless severely cut back, though they can be sent this way if desired, in which case add 10 cents for single plants for postage; 30 cents for six, and 50 cents per dozen. We pack securely for shipment by express anywhere without extra charge, purchaser paying express charges, which are very light on nursery stock of all kinds.

### Late Introductions — Novelties

	Each
<b>Columbia</b> , a semi-novelty in pink, satisfactory in all ways,	\$1.00
<b>Constance</b> , H. T., fine long orange yellow buds, streaked crimson, opening full golden yellow.....	1.00
<b>Golden Spray</b> , H. T., a tall rampant grower with long pointed buds of lemon yellow opening up semi-double .....	1.50
<b>K. of K.</b> , H. T., a semi-double, exceptionally free flowering rose of large size, color a most dazzling scarlet that enthuses every lover of red roses.....	1.50

| Hugh Dickson          | Excelsa (weeping)         |

ARTHUR R. GOODWIN

YAMHILL COUNTY PRUNE TREE IN BEARING

## FRUITS

The list of Fruit Trees we offer is carefully selected, for commercial and Home Orchard planting. We aim to grow the best varieties of each species and have eliminated as far as possible the undesirable kinds, for we wish our patrons to feel sure that they can be sure of obtaining varieties of proven merit. We are growers of general nursery stock and not merely dealers. Our soil is a loam that produces an exceptionally good fibrous root system that insures success in transplanting. Grown right, handled properly, sold direct with no agent's commission. The planter gets the benefit.

## BOOKS

### Practical Landscape Gardening

ROBERT CRIDLAND

#### Are You Planning

- to plant a few trees, shrubs, or hedge?
- to construct a walk, drive, pergola or garden columns; a pretty garden seat or rustic house; fountain, lily pond, swimming pool or bird bath?

#### Do You Want to Know

- how deep and where to plant the trees, shrubs, porch base plants?
- which flowers to use in your garden and borders?
- how to construct your walks and drives, Summer house, arches and pools?
- how to attain this or that effect, and make your home surroundings beautiful?

#### Then You Need This Book—Because:

- It tells how to plant the 20 ft. plot, as well as the larger estate.
- It gives detailed sketches showing where to plant your flower garden, rose, wild or rock garden; lawns, borders, etc.
- It has planting plans telling exactly what varieties to plant for best effects.
- It gives working plans showing how to construct walks, drives, pergolas, terraces, pools, fountains, garden seats and rustic houses, in fact every detail of your home surroundings.
- It contains photographs of actual homes, showing the effect of different plantings, the correct and incorrect method, etc.
- It will be the means of beautifying your home-grounds far beyond your own expectations.
- Get this book. It will save you hundreds of dollars of needless expense and much time and thought, because it is written by a landscape architect of national reputation, who tells facts that are worth money.
- Handsomely cloth bound. 276 pages. Contains 91 photographs, 67 sketches and 33 plans, 19 of which are planting plans. Diagrams of plots from 40x100 feet are given. Price: **\$2.50** (by mail \$2.65).

### HOME FRUIT GROWER

M. G. KAINS

A clear, simple, practical and comprehensive volume for the amateur who seeks to grow high quality fruits for home needs, whether to eat out of hand as a dessert or put up in some culinary way.

Heavily illustrated with teaching pictures. Price: Paper cover, **\$1.00** (by mail \$1.10). Cloth cover, **\$1.50** (by mail \$1.65)

### GARDEN GUIDE

The Amateur Gardener's Handbook

The big seedsmen and nurserymen—the most practical men in the country—recognize this book as THE VERY BEST obtainable and this accounts for the thousands of well satisfied buyers. Written by gardening experts expressly for the amateur and non-professional, therefore concise and readily understood.

**Covers Every Step from Plowing the Ground to Preserving the Harvest**

This book will tell you everything you need to know about your home ground surroundings, your vegetables, fruit and flower garden, trees, shrubs, lawn, etc. Covers in detail:

Growing Tomatoes, Peas, Beans, Cabbage, Celery, Beets, Corn, Onions, and all chief vegetables.

Growing fruits for the small garden or orchard; Apples, Peaches, Grapes, Berries, etc.

Ornamental trees, hedges, gardens and plantings of all kinds.

Constructing hot beds, cold frames, seed boxes, etc.

How to prune and propagate; control insect pests and diseases; all about soils, fertilizers, spraying, tools, et cetera, and

**1001 other live, up-to-date Gardening Facts, simply explained—easily followed**

The most practical and best selling book of its kind published. "Every book sells another book."

**A Guide to Garden Work for Every Month in the Year**

360 pages. Cover in four colors. Over 275 teaching illustrations, planting plans and sketches. Price: Paper cover, **\$1.00** (by mail \$1.10).
